Robbie Hartery
ECP & ASP Sprague Teacher

I look forward to starting my first year at WCCC after five amazing years working as a kindergarten after school coordinator in Newton. I am excited to have a chance to work with toddlers at the children's center and with younger elementary school students at Bates. I endeavor to share my passion for books, imaginary play, and exploration with children in both programs. I also aspire to develop and share activities which enhance children's enjoyment of cooking, art, and active games during the after school hours.
